Note.—In the 'Remarks' column information should be given on the following heads:—

- (1) Whether distress is acute or slight, increasing or decreasing, the classes mostly affected, and the cause of any marked rise or fall in the number of persons reported to be on relief.
- (2) Whether the people are resorting freely to relief works, clinging to their homes or concentrating in towns. Whether there is much wandering, any general appearance of emaciation among applicants for relief, any large mass of foreigners, etc.
- (3) The physical condition of the people on relief, particularly of the women and children, and of the labouring and cultivating classes generally.
- (4) The sufficiency of relief measures, and any special measures, such as relief to weavers and artisans in their own trade, the grant of advances, suspensions of land revenue, importation of fodder for cattle, measures to improve the water-supply, etc.
- (5) The state of the public health and the prevalence of epidemics.
- (6) The need for private charitable relief for clothing, medical comforts, or other objects, and the extent to which it is being met.
- (7) The amount of loans granted and disbursed under each Act and the number of wells on which work has been completed or is in progress.
- (8) When private or aided works are affording important relief, the number of persons relieved on such works, so far as known.

In those districts where the weekly season reports are telegraphed, the information specified above should be noted in the telegrams.

If famine-relief measures are in progress in any Native State under the political control of the Local Government, separate statistics should be entered as far as possible for such States.
